

NATURAL ALTERNATIVE TO **ANTICOCCIDIAL** DRUGS & VACCINES

PHYLOX[®] FEED

Phylox[®] is a non-pharmaceutical anticoccidial solution for NAE production. The feed additive contains a synergistic blend of bioactive phytochemicals. Its proprietary ingredients work together to damage *Eimeria* cell structure and function while strengthening intestinal integrity and boosting immunity.

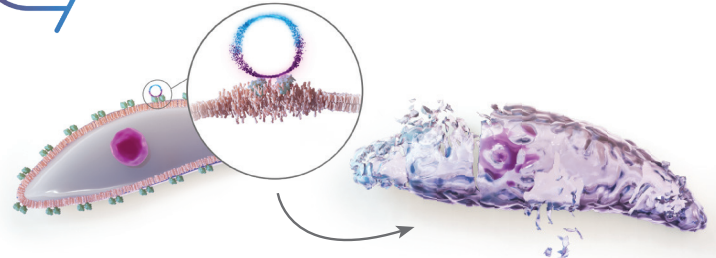

CAN BE USED IN A
**NO ANTIBIOTICS
..... EVER**
PRODUCTION SYSTEM

MULTIPLE MODES-OF-ACTION WITHIN *EMERIA* LIFE CYCLE

01 Interrupts *Eimeria* Life Cycle and Prevents Oocyst Sporulation

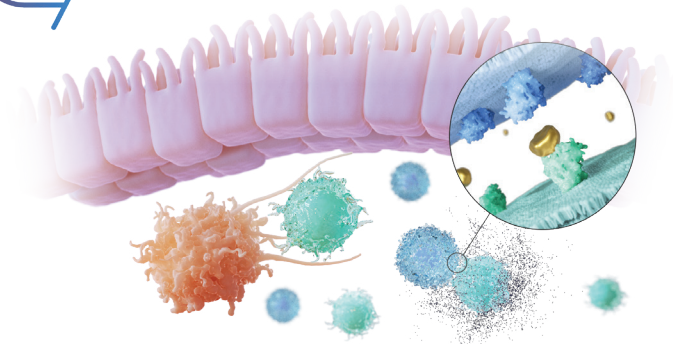

02 Disrupts Cell Membrane of Protozoa

03 Energizes Host Intestinal Cells

04 Improves Immune Function

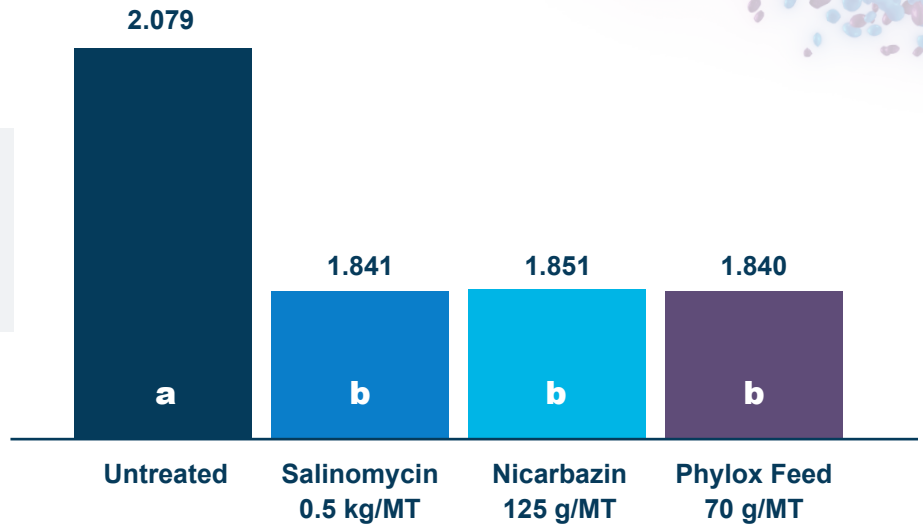

PHYLOX[®] FEED

Validated by multiple contract research trials, Phylox[®] provided equivalent performance as compared to commercially available coccidiostats including chemicals and ionophores under a cocci challenge*.
